aws training and certification

Candidate Name: Han-Nung Lin

Date: January 24, 2022

Exam Title: AWS Certified Solutions Architect - Associate

Language: English

Thank you for taking the AWS Certified Solutions Architect - Associate exam.

After your exam, AWS evaluates compliance with testing policies and procedures and the validity of exam results before the results are officially posted in your AWS Certification Account. This process can take up to 5 business days.

When your results are available, you will receive an email stating your exam results and score report are available for download under Previous Exams. If your results are not available after 5 business days or if you have any questions about the AWS Certification program, please contact AWS Training and Certification Support (https://www.aws.training/Support).
